

# ED Renovation & Expansion

## Project Fast Facts

### What are some of the key updates of this project?

- Remodels space and expands to add **7 more clinical rooms** for a total of 34 rooms to support patient flow through the department.
- Adds new isolation rooms and two rooms with private bathrooms for those requiring these custom surroundings.
- Relocates entrance to the North and adds circular drop off with canopy that extends to the Cancer Center entrance.
- Adds a new ambulance garage, expanding to allow 4 rigs and ability to drive through.
- Adds restrooms in waiting area, rather than having to go through locked door into hospital.
- Improvements for staff include new equipment storage, breakroom, support space and improved patient flow.
